4th year student looking for an internship abroad

Application for a technical internship

Motivated and hardworking, I would like to develop complementary skills thanks to an internship in IT domain.

EDUCATION

Engineering cycle, with specialization in management at ISEN Brest	2015 – to date
Graduate School of Electronic Engineering and IT.	

Preparatory class at ISEN Rennes	2012 – 2015
A two years intensive program with specialization in Computer Sciences and Networking.	

French Baccalauréat	2011 – 2010
Equivalent of A level, specialization in Mathematics and Industrial Science	

WORK EXPERIENCE

President of CAPISEN Junior-Enterprise (formerly vice-president)	2014 – 2016
CAPISEN is a non-profit civil social organization, run and managed exclusively by undergraduate students of ISEN. CAPISEN provides IT services for companies, institutions and society. Similar to real companies, this experience helps to develop entrepreneurial skills and provides management skills. Website: www.capisen.fr	

Bodet Software, Cholet 49, France	2014 – 2015
Sandwich courses, as part of my school curriculum. I worked as a test technician for a software editor. I had to prepare and run functional tests, writing and running test plans, then validate the correction according to the code requirement documentation. I worked on WebService tests using software SoapUI. I also worked on automated tests, writing test scripts with software TestPlant.	

Airbus S.A.S. - Saint-Nazaire 44, France	June – August 2014
Technical student internship. Reorganization of informatics resources.	

SCA Ouest - Saint Etienne de Montluc 44360, France	Summers 2012 and 2013
Summer job as an order packer. I had to prepare orders for delivery.	

SKILLS
